DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with William J. Zychlewicz (51,366) on September 2, 2005.
3. The application has been amended as follows:
 - In claim 19, line 7 of the claim, change "a collision" to "the collision."

Allowable Subject Matter

4. Claims 1, 4, 7, 12, and 19-35 are allowed.
5. The following is an examiner's statement of reasons for allowance:
 - With respect to claims 1, 7, and 26, the primary reason for allowance can be found in the advisory action mailed on July 26, 2005.
 - With respect to claim 19, support for the amendment is found at least at paragraph [0028] and Figure 3, respectively. The primary reason for allowance is because the Prior Art does not disclose operating a servo system by reducing the level of aggressiveness for responding to the collision; and maintaining the desired level of aggressiveness for responding to the input signal using a feed forward signal that forces the system output response to the collision to substantially equal the system response to the input signal when the feed forward signal is substantially zero.

Art Unit: 2837

6. Therefore, based on the arguments and amendments presented by the Applicant, the Examiner acknowledges the Prior Art fails to make obvious the Applicant's claimed invention.
7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
